

TECHNICAL INFORMATION

29378-1, 50435-2, 50435-4 BMW X5, X6, M

TS015

PLEASE READ BEFORE INSTALLATION

1. **Safety First**— H&R suspension components should only be installed by a qualified licensed mechanic experienced in the installation of suspension springs and shocks.
2. The BMW X5 factory rear height-sensing rod needs to be replaced when installing performance-lowering springs.
3. H&R spring kit for the BMW X5 includes a new H&R rear height-sensing rod.
4. The sensor rod is located at the rear axle assembly.
5. Remove the factory height-sensing rod.
6. Install the new H&R height-sensing rod.
7. Torque to factory specs.
8. Vehicle alignment should be checked. Vehicle should be set to factory alignment specifications.
