

FAULTS

The fault lamp (Check engine) can also be requested by faults in the transmission control unit. If no faults are stored in the DME but the fault lamp is lit, check the transmission control unit.

(098) 62 TANK VENTILATION VALVE ACTIVATION

(140) 8C Map cooling, activation

(221) DD ASC/DSC, CAN time-out

(114) 72 Camshaft position sensor, bank 2, signal
